

TO: TERRY EMERY, CITY MANAGER
FROM: BRAD LUTZ
SUBJECT: MARCH 2023 FINANCIAL REPORT
DATE: 4-10-2023

BACKGROUND

The purpose of this report is to provide a brief review of the revenues and expenditures for the following funds: General Fund, Security of Persons & Property Fund, Sanitation Fund, Sewer Fund, Water Fund, and Stormwater Fund.

Actual revenues and expenditures are compared to the budget to assess potential overages/shortages in budgeted categories. Comparisons with figures from last fiscal year are also included to indicate the differences by year, since budgeting techniques remain relatively uniform from one year to the next.

Appendix A provides detailed income tax information to highlight the reasons for income tax collection changes from year to year.

Appendix B details the year-to-date activity for all of the city's active fifty-three accounts. It is important to note the ending balance, encumbrances, and unencumbered balance. The unencumbered balance is the amount remaining in the fund if the city were to expend all the monies listed as encumbrances. The ending balance is the amount of funds available to the city as of March 31, 2023, and ties to the amount listed in Appendix B.

Appendix C is the Financial Statement for the city as of March 31, 2023. This statement provides a listing of the city's funds held at various financial institutions. Also presented are the interest earned to date, weighted average interest rate, and the weighted average maturity (days).

Appendix D is the Debt Schedule for the city through March 31, 2023. All principal and interest payments that have been paid to date are included in the schedule.

Appendix E is a graphical representation of the water and sewer utility consumption billed on a monthly basis in terms of cubic feet as well as dollars.

GENERAL FUND

The General Fund is the main operating fund for the city and is used to account for all financial transactions which are not reported in other funds. Major sources of revenue include income tax and property tax. Please refer to page three for a breakdown of the revenues and expenditures through March 31, 2023.

Revenues

The General Fund revenues performed as expected. However, the following revenue sources require additional explanations:

- Property Tax Revenues – 2022 property tax collections, payable in 2023, are disbursed by the County Auditor in April and August of each year.
- Income Tax – Year-to-date receipts total **\$6,120,858** which is **\$2,221,852, or -26%, less** than amount the City received during the prior year. Refer to Appendix A for a breakdown of these receipts.
 - In March of 2022 a major employer in Marysville remitted a significant amount of employee related to those employees exercising stock options and being taxed on those receipts. These are unusual and exceptional receipts and do not occur on a yearly, or regular, basis. Therefore, we expected a significant reduction in income tax receipts when comparing March 2023 YTD to March 2022 YTD and that has been communicated in recent months to Council to prepare them for this decrease.
- Intergovernmental Receipts – Primarily, these receipts are from the Local Government Fund (LGF) provided by the State and are paid monthly. The percentage received from the State is based on a formula which is applied to the State's tax collections. We receive intergovernmental receipts directly from both the County and the State each month. We are a little ahead of last year's collections, but these will pick up as we move through the year.
- Other Taxes – These revenues (which include lodging taxes) are higher than the amounts collected in the same period a year ago and, since they are funded significantly by lodging taxes, it would be reasonable to assume they will climb higher as winter gives way to spring and summer.
- Fees, Licenses, & Permits – These revenues are ahead of the amounts collected in the same period a year ago and will continue to pickup as we move into the construction season.
- Miscellaneous – There are one time receipts related to land sales and other projects expected during the year so the collections as of the end of the month are no concern at this time.
- Earning on Investments – Significantly higher than a year ago due to the federal reserve increasing interest rates. Council should expect the interest revenue to exceed 2023 estimated receipts next month.
- Charges for Services – The Finance Department processes chargebacks quarterly and will process the first one in March.

Expenditures

The General Fund expenditures performed as expected when compared to the 2023 budget. There are several expenditures made in the beginning of the year that are not repeated therefore the total expenditures slightly ahead of the budget at this time is not a concern.

2023 total budget expenditures include \$370,187.78 in carryover encumbrances.

Denotes noteworthy items that are either exceeding estimated revenues or spending under expected budget appropriations at this point of the year and further explanation is provided on the Financial Report Summary

Denotes noteworthy items that are either not meeting estimated revenues or spending over expected budget appropriations at this point of the year and further explanation is provided on the Financial Report Summary

SECURITY OF PERSONS & PROPERTY FUND

The Security of Persons & Property Fund is a Special Revenue Fund which means that the resources are restricted to only funding expenditures that support the court, police and fire divisions. Please refer to page five for a breakdown of the revenues and expenditures through March 31, 2023.

Revenues

Several sources of revenue support this fund, including grants, fines, and charges for services. This fund is also subsidized by a transfer from the General Fund.

- Fines & Costs – Slightly higher than the amount collected in the same period a year ago, but tracking below estimated receipts at this time.
- Charges for Services
 - EMS Billing - The city contracts with MED3000 to bill and collect the fees for providing EMS services. To date, the City has received **\$243,678**, which is **\$9,425, or 4%, less** than the same period from the prior year.
 - Effective October 1, 2017, the State of Ohio awarded the City of Marysville a contract for the medical transportation of inmates within the Ohio Reformatory for Women. The contract end December 31, 2022, however a new contract is currently being negotiated. The EMS billing rates will remain as follows until the new contract is approved:
 - Local Transport Basic Life Support: \$650
 - Local Transport Advanced Life Support: \$820
 - OSU or Franklin Medical Center Transport Basic Life Support: \$650
 - OSU or Franklin Medical Center Transport Advanced Life Support: \$820
 - Transport Price per mile: \$0.00
 - Fire Contracts - The City of Marysville provides fire, rescue, and EMS services to the following communities: Paris Township, Dover Township, a small part of Darby Township, and southern half of Leesburg Township (EMS only). The City will bill these local governments for the services in May.

Expenditures

The Security of Persons & Property Fund expenditures performing as expected compared to the 2023 budget. There are several expenditures made in the beginning of the year that are not repeated therefore the total expenditures slightly ahead the budget at this time is not a concern.

2023 total budget expenditures include \$66,732.39 in carryover encumbrances.

Denotes noteworthy items that are either exceeding estimated revenues or spending under expected budget appropriations at this point of the year and further explanation is provided on the Financial Report Summary

Denotes noteworthy items that are either not meeting estimated revenues or spending over expected budget appropriations at this point of the year and further explanation is provided on the Financial Report Summary

SANITATION FUND

The Sanitation Fund accounts for the costs of providing refuse services. This fund is an Enterprise Fund which means that the main source of revenue is the monthly fees charged to residents for this service. Please refer to page seven for a breakdown of the revenues and expenditures through March 31, 2023.

Revenues

The Sanitation Fund revenues performed as expected. However, the following revenue sources require additional explanations:

- **Charges for Services** – Year to date service charges collected total **\$601,246**, which is **\$38,630, or 6.9%, more** than the City received in the prior year. At the end of the month, there were **6,771** utility customers receiving trash collection service.
 - The last codified increase of \$.50, with the exception of the refuse fees for residents over 65, was effective February 1, 2022.

Expenditures

The Sanitation Fund expenditures performed as expected through March 31, 2023. There are several expenditures made in the beginning of the year that are not repeated therefore the total expenditures outpacing the budget at this time is not a concern.

**SANITATION FUND

2023 total budget expenditures include \$45,544.73 in carryover encumbrances.

Denotes noteworthy items that are either exceeding estimated revenues or spending under expected budget appropriations at this point of the year and further explanation is provided on the Financial Report Summary

Denotes noteworthy items that are either not meeting estimated revenues or spending over expected budget appropriations at this point of the year and further explanation is provided on the Financial Report Summary

SEWER FUND

The purpose of the Sewer Fund is to provide wastewater collection and treatment service to resident and commercial users. This fund is also an Enterprise Fund, with user fees financing the expenditures. Please refer to page nine for a breakdown of the revenues and expenditures through March 31, 2023.

Revenues

The Sewer Fund revenues performed as expected. However, the following revenue sources require additional explanations:

- Charges for Services
 - Fees – These fees include tap-in fees and inspection fees for properties outside of the incorporated boundaries for the City of Marysville. They also include permit fees, rent and administrative fees. Year to date fees collected in the Sewer Fund total **\$673,620**, which is **\$223,029, or 25%, less** than the amount collected in the prior year primarily due to fluctuations in development fees paid from month to month when compared to the prior period.
 - Service Charges – Year to date service charges collected total **\$2,848,810**, which is **\$149,437, or 5.5%, more** than the amount collected in the prior year. At the end of the month, there were **10,263** utility customers with sewer service.
- Property Tax Revenues (Residential TIF's) – 2022 property tax (TIF) collections, payable in 2023, are disbursed by the County Auditor in April and August of each year
- Earning on Investments – Significantly higher than a year ago due to the federal reserve increasing interest rates. Council should expect the interest revenue to exceed 2023 estimated receipts before year end.
- City Capacity Fees – Year-to-date receipts of **\$284,766**, which is **\$452,221, or 61%, less** than the amount collected in the prior year. These receipts include tap-ins for properties within the incorporated boundaries for the City of Marysville. The revenue from these capacity fees are deposited in the Incremental Wastewater Capacity Fee Fund (Fund 534) and the Sewer Replacement and Improvement Fund (Fund 536) and, therefore, are not reflected in the financial statement below

Expenditures

The Sewer Fund expenditures performed as expected through March 31, 2023.

WATER FUND

The Water Fund was established to account for the treatment and distribution of water to resident and commercial users. This fund is also an Enterprise Fund, with user fees financing the expenditures. Please refer to page eleven for a breakdown of the revenues and expenditures through March 31, 2023.

Revenues

The Water Fund revenues performed as expected. However, the following revenue sources require additional explanations:

- Charges for Services
 - Fees - These fees include tap-in-fees and inspections fees for properties outside of the incorporated boundaries for the City of Marysville. They also include utility deposits, permits and inspection fees. Year to date fees collected in the Water Fund total **\$632,269**, which is **\$1,558, or 0.2%, less** than the amount collected in the prior year primarily due to fluctuations in development fees paid from month to month when compared to the prior period.
 - Service Charges & Collections – Year to date service charges collected total **\$2,185,742** which is **\$58,806, or 2.8%, more** than the amount collected in the prior year. At the end of the month, there were **12,147** utility customers with water service.
- Earning on Investments – Significantly higher than a year ago due to the federal reserve increasing interest rates. Council should expect the interest revenue to exceed 2023 estimated receipts before year end.
- City Capacity Fees – Year-to-date receipts of **\$275,631**, which is **\$276,515, or 50%, less** than the amount collected in the prior year. These revenues include tap-ins for properties within the incorporated boundaries for the City of Marysville. For consideration, the revenue from these capacity fees are deposited in the Water Replacement and Improvement Fund (Fund 551) and the Incremental Water Capacity Fee Fund (Fund 553) and, therefore, are not reflected in the financial statement below.

Expenditures

The Water Fund expenditures performed as expected through March 31, 2023.

STORMWATER FUND

The Stormwater Fund is an Enterprise Fund that was established to account for the costs of repairing, replacing, and improving the city's storm drainage system. User fees sustain the expenditures of this fund. Please refer to page thirteen for a breakdown of the revenues and expenditures through March 31, 2023.

Revenues

The Stormwater Fund revenues performed as expected. However, the following revenue sources require additional explanations:

- **Charges for Services**
 - Fees - These fees include permits and inspection fees. Year to date fees collected in the Stormwater Fund total **\$1,533**, which is **\$22,983, or 94%, less** than the amount collected in the prior year primarily due to fluctuations in development fees paid from month to month when compared to the prior period.
 - **Service Charges** – Year to date service charges collected to date total **\$422,788**, which is **\$51,387, or 13.8%, more** than the amount collected in the prior year. At the end of the month there were **7,186** utility customers paying the stormwater fee on a monthly basis
 - NOTE: There was no codified increase for this service in 2022. The last increase was effective in February of 2021.

Expenditures

The Stormwater Fund expenditures performed as expected through March 31, 2023. There are several expenditures made in the beginning of the year that are not repeated therefore the total expenditures outpacing the budget at this time is not a concern.
